Broome County Health Department Schedules H1N1 Flu Information Sessions

The Broome County Health Department has scheduled two information sessions on the H1N1 influenza virus for the Vestal Central School District community. Parents are welcome to attend either session to be held from 7 - 8 p.m. on October 14 and 20.

The information session on October 14 will be held in the new auditorium located at the African Road Elementary/Vestal Middle School building, 600 South Benita Boulevard. The second session, on October 20, will be held in the Vestal High School auditorium, 205 Woodlawn Drive.

Benjamin Krakauer, the emergency preparedness coordinator for the Broome County Health Department, will conduct both sessions, which consist of an overview of the H1N1 flu virus and school vaccination program details, followed by a period for questions and answers.
