SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS

The Superintendent/designee will develop regulations to select and define the specific structure and components of the response to intervention program, including, but not limited to, the criteria for determining the levels of intervention to be provided to students, the types of interventions, the amount and nature of student performance data to be collected, and the manner and frequency for progress monitoring.

In accordance with Commissioner's Regulations, the School District established administrative practices and procedures for implementing District-wide initiatives that address a Response to Intervention (RTI) process applicable to all students. For students suspected of having a potential learning disability, the District will provide appropriate RTI services pursuant to Commissioner's Regulations prior to a referral to the Committee on Special Education (CSE) for evaluation.
