SUBJECT: MINIMUM CLASS SIZE IN GRADES 7-12

The Board of Education establishes twelve (12) as the minimum enrollment standard for all classes in grades seven through twelve based on enrollment data.

The minimum enrollment shall not be applicable to programs who class size is mandated by State or Federal regulation or to an instructional group within a classroom.

The Superintendent of Schools may recommend to the Board of Education that an exception to the minimum enrollment standard be permitted when:

- a) Such course is required to complete a major sequence;
- b) The failure to offer such course would eliminate or cause to be eliminated in an instructional program;
- c) Such course is required to complete the International Baccalaureate diploma; or
- d) Other unusual circumstances which may require that an exception be recommended.

Adopted 8/13/13
