BENEFITS: \$500 - 1,500

DUE DATE TO GUIDANCE: April 30, 2024

**Applications are available in the Counseling & Guidance Office
or in Google Classroom.**

SOUTHERN TIER TECHNOLOGY STUDENT SCHOLARSHIP ASSOCIATION INC. SCHOLARSHIP 2024

The Southern Tier Technology Student Scholarship Association Inc. (STTSSA) will award at least one scholarship to a young person who has taken Technology Education courses. Awards of either \$1500 or \$500 may be made at the discretion of the committee as funding allows. Each award winner will receive a recognition certificate and check that may be presented at your school's award ceremony. This is to be applied to your tuition and expenses during the 2024-2025 school year,

QUALIFICATIONS

- Applicants must be a student graduating attending a STTSSA region high school (Broome, Tioga and Chenango counties) in the class of 2024.
- Be recommended by an active member of STTSSA. (Please confirm with your teacher that they are active which is defined as current in dues and having attended a meeting in the current academic year)
- Graduate high school with the class of 2024 and enroll in a college or university as an Engineering, Technology, or closely related STEM major for the 2024-25 school year.

APPLICATION PROCEDURE

*Due to Guidance: 4/30/24

Students must complete and submit all the following either electronically or by mail on or before May 1st, 2024 to be considered:

- Application form
- Student's résumé
- Student's transcript (Guidance will provide)
- Letter of Recommendation (Recommended) from an ACTIVE STTSSA member (May be sent electronically)
- Essay or Portfolio (See information about these tasks below.)

Electronic submissions are strongly recommended (Confirmation will be sent once received) PDF's preferred

Essay Option - Discuss in 200-800 words your involvement in technology education and how it has directed your career focus. Focus on projects and courses that have led you to pursue an engineering or technology degree program. If applicable, discuss a project you have completed that demonstrates initiative, leadership, and commitment.

Portfolio Option - Should be a display of your best work and may be submitted in any hard copy (PDF) or any other format that you wish as long as it is in a media that the committee can view. It should display your best work in technology or engineering education, demonstrating creativity, skill, initiative, leadership, and commitment in the areas of STEM. Please include a brief description of a project's objectives and results to help guide the committee's review of your work.
